EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These regulations amend the Authorisation of Commercial Vehicle Roadworthiness Test Operators and Testers Regulations 2013 ( S.I. No. 107 of 2013 ) to provide for the following:

(a) prescribe standards as required by Section 11(2) of the Road Safety Authority (Commercial Vehicle Roadworthiness) Act 2012,

(b) introduce premises improvements and remove the special conditions relating to drive throughs and HCV pit lengths,

(c) delay the requirement to comply with standards to 19 March 2027, which shall allow:

- premises that already meet standards to be authorised for up to 10 years,
- sufficient time for upgrading of premises that do not meet standards,
- affected CVR test operators to renew their authorisations using existing premises until 18 March 2027 and subsequently using upgraded premises which meet standards until 18 March 2034. This approach shall give affected CVR test operators a 3-year grace period, and

(d) introduce dimension tolerances for testing premises (where dimensions are close to the minimum required) in very limited circumstances where there will be no material impact on the standard of testing or the standard of the premises. Ensuring the improvement of standards is achieved where possible without excluding a testing premises that narrowly fails to meet one or two of the dimension requirements.
